## Welcome to Lungomare Gasthaus. Filipa Ramos

Franz

From 1st to 30 June 2013, on the occasion of its 10th anniversary, Lungomare opens the "Lungomare Gasthaus", a temporary space for thought and action, with discussions, talks, workshops, spatial interventions, a screening program, performances and actions. franz is happy to introduce to you the Lungomare Gasthaus people.

**Filipa Ramos** (b. 1978 in Lisbon) is an art critic based in London. A lecturer at the Department of Visual and Performing Arts of IUAV – University of Venice and in the Experimental Film MA program of Kingston University, London, Ramos was also guest curator at several public and private art spaces and is a regular contributor to numerous international publications. She is currently the curator at *Vdrome*.

### Who are you?

My name is Filipa Ramos, I was born in Lisbon, and I am an art writer.

### What are you going to do in the Lungomare Gasthaus?

I am joining the Lungomare team in conceiving the programme of the Gasthaus. I am developing a weekly film programme of artist's films and videos, entitled *This is My Land*, and I am curating a series of open encounters with artists, curators, thinkers, and publishers to discuss the future of Lungomare and that of similar institutions, which is called *The Sunday Brunch*.

### What does Gasthaus mean to you?

A place where I feel at home in someone else's home.

### What does this town mean to you?

I am unable of perceiving Bolzano as an isolated town. It is deeply rooted within a complex territory whose richness lies across boundaries and thresholds, and that is what is so fascinating about it.

### What does house mean to you?

House is the place I left.

### Meals will be served in the Gasthaus. What does food mean to you?

It means history, memory, affection, culture, and time spent with my beloved ones.

### The Gasthaus is a place for exchanging ideas and experiences. What are you going to exchange?

I feel I am exchanging my nationality.

### The Gasthaus is located beneath a mountain, but at lungomare. What is your relation to these contrasts?

The sea is always behind the mountains. I don't see any contrast.
